Six key benefits from using the Rowlinsons Conveyancing App

Push Notifications

Relax knowing your phone will 'ping' with any update or action in relation to your case

1

Secure Messages

Easily communicate with us at any time

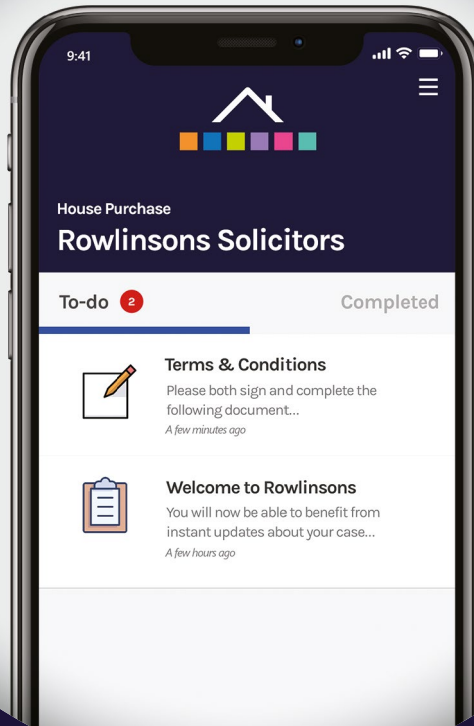

2

To Do List

Stay organised at all times by utilising our 'To Do' list

3

4

Digital Signature

Sign off documents with our digital signature system

Multiple Cases

Access multiple files if you have multiple cases

5

Forms and Documents

Complete all forms and documents and upload / scan documents through your phone, tablet or computer

6

The Rowlinsons mobile conveyancing app has been launched to improve the client experience for property buyers and sellers who instruct our firm.

The app allows you to access key documents and information on your transaction and check on progress 24/7 by linking directly into our internal systems. You are also able to receive letters and messages instantly and electronically sign and return any documents, all through the app.

Not only can clients expect improved communication throughout the process, the app can speed up the progress of transactions and eliminate needless delays waiting for documents to be sent and returned. The app is available to download to either an Apple or Android mobile device.
